OUR PRINCIPLES

- Provide customers proof of a business address, telephone number and tax identification number.
- Exhibit professionalism, quality workmanship and readily offer customer references.
- Provide liability insurance coverage for each roofing job.
- Commit to worker education and safety training, including compliance with OSHA regulations
- Provide detailed written proposals, descriptions of the work performed, start and completion dates in addition to payment policies and procedures.
- Honor contracts to the best of our company's ability
- Provide properly maintained and clean job site with respectful and courteous workers
- Stand behind my company's work, offering warranties and/ or guaranties, where appropriate

At Carolina Dumpsters we focus on quality, customer service, and making sure you have a great experience.

We offer dependable dumpster rental services to help your job site stay organized. Our construction dumpsters are perfect for many common projects, including roofing, landscaping, demolition, and heavy debris removal projects. Our quick deliveries and pickups will help keep your job site clean, eliminating any delays due to your debris. Whether your team is building up or tearing down, we have a dumpster for your construction waste, commercial or residential. We are located in the Triangle and are ready to support you with your next project.

DEMOLITION SERVICE

Carolina Demolition's service-oriented crew is here to provide excellent demolition services for projects of all sizes, whether it's commercial or residential. We specialize in interior demolition, concrete removal, fence removal, barn/shed demolition, and more!

At our company, we prioritize environmentally safe practices and make sure to minimize our contributions to landfills by recycling and reusing as much construction and demolition

debris as possible. We understand the value of your time and money, and we strive to exceed your expectations by completing your project safely, efficiently, and affordably.

When you need comprehensive residential or commercial demolition services, give us a call for a free estimate. We offer services for shed/barn demolition, concrete demolition, and fence demolition. Trust us to get the job done right! Contact us today for reliable and professional demolition services.

One of the advantages of choosing our company is our comprehensive range of demolition services. From small interior demolitions to larger commercial projects, we have the expertise and experience to handle it all. Our services include but are not limited to:

INTERIOR DEMOLITION:

Whether you need to renovate your office space or remodel your home, our crew can handle interior demolition tasks with ease. We take care of removing walls, ceilings, flooring, fixtures, and more, leaving your space ready for your next construction phase.

CONCRETE REMOVAL:

Need to get rid of old concrete structures or surfaces? Our team has the right tools and equipment to safely remove concrete, including foundations, sidewalks, driveways, and more, ensuring a clean and smooth demolition process.

FENCE REMOVAL:

If you have an old or damaged fence that needs to be taken down, we can help. Our crew will carefully remove your fence, including posts, rails, and other materials, leaving your property clean and clear.

BARN/SHED DEMOLITION:

Have an old barn or shed that is no longer in use? We can dismantle and remove it for you. Our crew has experience in barn and shed demolition, ensuring that the job is done efficiently and safely.

JUNK REMOVAL

Are you tired of clutter taking up valuable space in your home or office? Need to get rid of unwanted items quickly and responsibly? Look no further! Carolina offers top-notch junk removal services that are efficient, professional, and eco-friendly.

We understand that junk comes in all shapes and sizes, from large appliances and furniture to boxes of clutter. Whether you have a single item or a massive junk removal project like an estate cleanout, downsizing before a move, or business junk removal, we have you covered. Our team is experienced and equipped to handle any junk removal job, big or small, with utmost care and attention to detail.

One of the key features of our service is convenience. We offer a wide range of junk removal options, including furniture removal, e-waste recycling, office furniture removal, hauling old yard equipment, and more. Whatever your junk removal needs, we can tailor a solution that fits your requirements and schedule. Just give us a call, and our friendly team will provide you with a junk removal estimate tailored to your specific needs.

When it comes to pricing, we offer transparent and competitive rates. Our pricing is based on the amount of junk we fill up in our 15-yard dumpster, which is one of the largest in the industry. This means you get great value for your money. Our estimators assess the junk on-site or based on the images provided by customers to provide accurate pricing estimates. However, please note that junk that was not visible at the time of estimation or in the images may affect the final price.

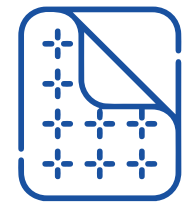

When you choose Carolina for your junk removal needs, you can expect a professional and hassle-free experience. We take pride in our attention to detail, ensuring that your space is left clean and free of any debris or junk. Contact us today for a junk removal estimate and let us take care of your junk removal needs efficiently and responsibly!

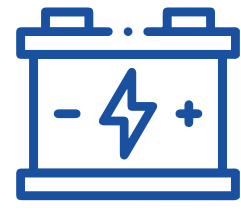

WE CAN TAKE THESE ITEMS
FOR AN ADDITIONAL CHARGE.
PLEASE ASK FOR PRICING.

Tires

Mattresses

Batteries

It's important to mention that our services are environmentally responsible. We have a 2-ton allowance for junk removal, and any weight beyond that will incur a fee per ton. This ensures that we comply with waste disposal regulations and dispose of junk in an eco-friendly manner. We also have strict policies against hazardous materials, waste materials, liquids, asbestos, gas, oil, medical or bio-hazard waste, chemicals, paint cans (unless dry with lid off), Freon, perishable items (kitchen trash with food items), large appliances, TV's, and computer equipment such as desktop monitors, printers, CPU's, and keyboards being put in landfills. We take our commitment to environmental sustainability seriously and strive to minimize our impact on the environment.

DUMPSTER RENTALS

FREQUENT QUESTIONS & ANSWERS

WHAT IF I GO OVER THE ALLOWED WEIGHT ALLOWANCE?

There is a prorated overweight charge if you go over the allowed weight capacity, that depends on your city. Keep in mind that if the dumpster is overweight we will not be able to take it. We do not accept dumpsters full of concrete, block, brick, or dirt.

HOW MUCH CAN I FILL THE ROLL-OFF DUMPSTER?

Our driver needs to cover the dumpster with a tarp, so please do not fill the dumpster over the top edges of the dumpster. All items must fit inside the dumpster. We cannot pick up any overloaded dumpsters. All customers will be responsible for removing any excess and will be charged a trip charge.

WHAT IF I NEED THE DUMPSTER EMPTIED AND BROUGHT BACK?

If you need the dumpster emptied and brought back, this is called a swap out and costs the same amount as the initial dumpster rental. Your rental period will restart the day we drop off each dumpster. We charge by the load.

WHAT ITEMS CANNOT BE PUT IN THE ROLL-OFF DUMPSTER?

No Hazardous materials, tires, waste materials, liquids, asbestos, gas, oil, medical or biohazard waste, chemicals, paint cans (unless dry with lid off), Freon, perishable items (Kitchen trash with food items) or large appliances, TV's and computer equipment such as desktop monitors, printers, CPU's and keyboards CANNOT be put in landfills. Yard Debris allowable but must be kept in a separate ROLL-OFF dumpster. Any banned items are subject to a fee. We do not accept dumpsters full of concrete, block, brick, or dirt.

WHAT DOES YOUR PRICE INCLUDE?

Our price includes drop off, a rental period, pick up and the disposal of your debris up to 2 TONS. We do not accept dumpsters full of concrete, block, brick, or dirt.

HOW FAR IN ADVANCE DO I NEED TO ORDER MY DUMPSTER?

It is always best to reserve your dumpster as far in advance as possible to ensure availability. If you need to reserve it on short notice, we can usually have it delivered within 24 hours (depending on availability).

WILL THE DUMPSTER DAMAGE MY DRIVEWAY OR YARD?

We take precautions such as placing wood underneath the dumpsters to prevent any damage to your driveway or yard and sweeping and picking up anything that could be damaging such as nails or glass.

WHAT ARE YOUR HOURS OF OPERATION?

Monday through Sunday 9 am to 5 pm
Holidays we are closed.

WHERE DO WE OPERATE?

We operate within a 30 mile radius of our HQ in Raleigh these cities include Raleigh, Cary, Apex, Durham, Knightdale, Wendell, Zebulon, Clayton and Wake Forest. Any jobs outside of the 30 mile radius will face a per mile fee. If your city is not listed please give us a call.

SNOW REMOVAL

RESIDENTIAL SNOW REMOVAL

Seasonal snowfall can be a major inconvenience. Whether it's hindering your ability to get to work, take the kids to school, or just perform your daily errands, snowfall can be incredibly annoying for homeowners or residents. Lucky for Raleigh residents, Carolina Dumpster Rentals & Roofing can reduce the headache that comes with seasonal snowfall. Enjoy staying warm indoors while we handle the hard, cold work of snow removal. We offer snow removal for the following areas of your property:

- Front Sidewalks
- Front Stairs
- Rear Stairs
- Walkway To Curb
- Parking Spots
- Garage Apron Or Lip
- Personal Vehicles

There's no reason that snow should stop you from doing what you need to do on a day to day basis. That's where Snow Pushers comes into the picture. Our residential snow removal services are second-to-none — we get the job done quickly and efficiently so you can carry on with your day. Furthermore, we offer the most competitive prices and the most affordable rates in the city and the surrounding areas. With affordable pricing, just about anybody can afford to have snow removed from the exterior of their home.

We offer commercial snow removal services for the following areas of your property or business

- Medical Offices
- Dental Offices
- Commercial Offices
- Restaurants
- Retail stores
- Front Sidewalks
- Walkway To Curb
- Parking lots

COMMERCIAL SNOW REMOVAL

From parking lots to storefronts, having a buildup of snow can negatively affect your business. At Carolina Dumpster Rentals & Roofing, we've been assisting Raleigh & surrounding area business owners and property managers in removing pesky snow build-up. In some cases, snow's build-up completely denies your customers access to your business. For owners, that makes snowfall a serious issue that has to be taken care of accordingly. That's why Carolina works

tirelessly to ensure that business owners don't experience unnecessary downtime that can lose them business, and in turn, revenue. If you're looking for unmatched snow removal services in Raleigh and the surrounding areas, look no further. We provide commercial snow removal at multi-unit properties, restaurants, medical practices, storefronts, and any other kind of business in Raleigh and the surrounding areas.

SNOW REMOVAL

PREVENT ACCIDENTS

When dealing with snow, safety is one of the most crucial factors that you need to be mindful of. As snow falls, it can become a safety hazard for pedestrians that are only walking by. And this often due to the fact that they can possibly walk on snow that has partially melted and refrozen, creating the likelihood for them to fall and sustain an injury. And when it happens on your property, you may likely be liable for their injuries. We understand just how dangerous snow can be more than anybody else. Which is why our company is devoted to making sure grounds are completely safe and free of snow. Our commercial snow removal service will ensure that no accidents will take place on your property once we're finished.

PREVENT LOST INCOME

Whenever a business has a parking lot with snow it can prevent customers from being able to drive safely around your business, which can result in business loss. Hire us for our commercial snow removal services and we'll make sure it's safe for your customers to drive in your parking lot and keep your business running. Once we are finished providing you with the snow removal, you'll be able to go to work with absolutely nothing obstructing your commute at all. If you have specific spots on your property where our snow removal services need to be optimized the most, Carolina is more than happy to assist you.

TOTAL CONVENIENCE

Our commercial snow removal service provides the ultimate convenience to all patrons. With our residential snow removal in Raleigh, pedestrians won't ever need to worry about too much snow being in the way. Furthermore, it'll be much more convenient for you to walk your grounds without any problems.

NO LABOR REQUIRED

Once we provide our residential snow removal services, we'll be able to do all the work for you so you won't have to. Snow removal can be backbreaking work. Also, it can be very time-consuming. So if you don't have enough time on your hands or you just simply wish to not do any work at all, feel free to hire only one of the best commercial snow removal services Raleigh has to offer: US!

Carolina Dumpster Rentals & Roofing will be much more than happy to provide its work so that you won't even have to lift a finger. We're even willing to provide you our side streets snow removal services if you need it.

SALTING SERVICES

Carolina is Raleigh's choice for salting services for snow removal. For those that live in areas with heavy snowfall, salting services are the easiest choice for snow removal. Dealing with snow as soon as it arrives is the smartest choice, and if not dealt with, could lead to fees and even law suits. Residential or commercial, salting services are necessary to avoid inconveniences and potential injuries. Responsible homeowners should plan for salting services before heavy snowfall arrives so it can be dealt with quickly and efficiently.

Raleigh's Premier Salting Service For Snow Removal using salt to melt snow makes winter conditions safer for pedestrians and potential customers, depending on your property type. Primarily, salt is used to prevent cars from slipping on roadways. Salt provides vehicles with increased traction on their tires.

Additionally, salt can be used to melt away snow and ice. This makes road conditions that much better for vehicles, and can even make it safer for those navigating on sidewalks if used appropriately. After a heavy snowfall, business and property owners must keep the safety of those in and around their property in mind. Thanks to Carolina, you don't have to worry about doing the work yourself. We've got you covered.

FREE ROOF INSPECTION

CONTACT US TODAY FOR A FREE INSPECTION

First, we assess the damage and prepare an estimate for you. Before we proceed, we want to make sure you fully understand the extent of the damage. We don't want to short-change you. Instead, we look to educate on how we intend to fix your roof.

We don't start until you give approval. Once we start, we guarantee a quality finish for your roof. We'll provide the best roofing material for high winds to give your home the best possible protection as well as an excellent look. After the job is done, Carolina Roofing will also make an annual free inspection to make sure your roof is handling the stress of its environment.

WE HAVE YOU COVERED

We know what to look for and we want to make sure any damage from wind, storms, etc is fixed before it happens. That way, you save time and money down the line. Our trained specialists can handle any kind of roofing issues you may have. We can help you get the best possible results for your home and we'll educate you on solutions that will work for your roof.

Above all, Carolina Roofing wants to make sure that your roof is safe and secure. Without the proper overhead covering, your home could be susceptible to many more dangers. Take the proper defense against the damaging winds and get your roof repaired today with Carolina Roofing.

WE OFFER A YEARLY SUBSCRIPTION FOR ROOF INSPECTIONS

Getting regular roof inspections annually is important for your house because it can help detect the problems on time and stop further damage to your house. Roof inspectors will be able to find faults in the roof layout and suggest repairs before it may cause moisture damage to your home. At the end of each inspection, you will receive pictures & notes. To cancel is simple, just call us & let us know before your next scheduled inspection.

Carolina Roofing is your trusted partner in keeping your roof safe and secure. With our free roof inspection service, quality repairs, annual subscription for inspections, and commitment to customer satisfaction, we have you covered. Contact us today to schedule your inspection and experience the Carolina Roofing difference. Don't let your roof be vulnerable to the damaging effects of wind and storms - trust the experts at Carolina Roofing for all your roofing needs.

ROOF REPAIRING

WATER DAMAGE

Your roof is crucial. Even if it is something as small as a leaky roof, we treat it with the same care & attention that we give all of our projects.

We first assess the damage the leaking roof is causing. We formulate a thorough plan, then give you an estimate on how much time and resources this would take. More than anything, we want you to be fully aware of what Carolina Roofing is doing at any given moment with your project. That way, you'll be more aware of your home and of our processes at the same time.

Once you approve the project, we go to work on your leaky roof repair. We take great pride in our work, so the last thing we want to see it do is fail.

WIND DAMAGE

Like a lot of homeowners, the last thing on your mind most days is probably wind damage to your roof. The truth is that, when it happens, it can be absolutely devastating.

Downed power lines, ripped up foundations, wind damaged shingles, and worse can happen when disaster strikes. When it does, you need to have the best.

When you need your roof repaired, you need precision and quality. You don't want more wind damage to happen. Let Carolina Roofing get your roof fixed and back up to the quality you expect from your house. We offer the best roofing material for high winds available in your area.

HAIL DAMAGE

Hail storms damage homes by cracking roofs, gutters, and anything else they come into contact with. The average size of a piece of hail and the rate at which hail falls can both vary significantly. Even when you don't see dips or dents on your roof, you might still find hail damage from a recent storm if you look underneath the roof. If you see damage in siding, gutters, or other things, investigate your roof.

Just because you don't see hail damage at first glance doesn't mean that it's not present and roof repair isn't necessary.

Hail damage to roofs is an issue that is more common than you might think. Total monetary damage from hail storms can add up to billions of dollars every year, and a large portion of that damage is to roofs.

Hail storms can damage anything in their path, and your home is no different. When fixing elements of your home that you deem to be most vulnerable, it's important to get any hail damage to your roof repaired as quickly as possible. You are in charge of your home's safety, security, and dependability, and significant hail damage can compromise all three.

TREE DAMAGE

Carolina Roofing has seen it all. From small damage to complete roof replacement, our Carolina roofing technicians are armed to the teeth with the knowledge, the experience, and the tools needed in order to take care of your tree damage-related problems. Since we first started doing business, we have strived to make each job more precise and complete than the last one. We settle for nothing less than the best.

Your project with Carolina Roofing begins with a free estimate of your project. In that estimate, we will assess the extent of the damage, the time necessary to repair the roof, and what the overall strategy will be. We want our roofing work to stand out and stand up to the harsh elements. If there are any flaws in the workmanship of the materials outside of a disaster, we will hold ourselves responsible.

Tree damage is a costly disaster. According to the Washington Post, just removing a tree from a roof could cost up to \$10,000. When you are dealing with expensive repairs like that, you need to spend your money where it counts. Count on Carolina Roofing to get your roof repaired for good.

COMMERCIAL & RESIDENTIAL ROOFING

Our roofing systems are built from the industry's best materials. It starts with plywood decking, an ice and water shield, an underlayment layer, drip edge, starter shingles, and finally the shingles.

Carolina uses environmentally-friendly materials to reduce our carbon footprint. In addition, we donate used shingles which are then recycled into hot mix asphalt for paving roadways.

The average Carolina project helps pave roughly 50 feet of road, keeping thousands of tons of roofing material out of local landfills each year. One of our core values, Environmental Conservation is important to us and we will continue to seek out ways to conserve resources, improve the environment and keep our cities beautiful.

When choosing a full-service company for roofing, homeowners look for a trustworthy provider they can count on. Carolina has performed to such a high standard with our customers for the past years that we've earned a 5-star rating. That's why so many of our new customers are referred to us by satisfied homeowners.

Carolina's mission is to be the top choice for commercial & residential home services by delivering the best customer service and stress-free buying experience in the home improvement industry. Our core values of service, integrity, quality, continued improvement, employee appreciation, and community support are on display with every job we do.

FINANCING OPTIONS AVAILABLE FOR ROOF REPLACEMENT COSTS

In order to secure Carolina Roof replacement services as easily as possible, contact our team today to learn more about our free insurance claims assistance and financing plans. With these add-ons, shingle warranty from manufacturer, and workmanship warranty, you can rest assured knowing that your roof replacement will be a manageable investment into the future of your home.

CHOOSE US FOR ROOF INSTALLATION SERVICES.

A high-quality roof should look great on your home and last for years. To make sure you get top-of-the-line materials, reach out to a reputable roofing company. Carolina offers roof installation services in the Triangle & surrounding areas. Whether you want a traditional shingle roof installation or you're thinking about a different material, we can do the job. We'll have your new roof set up in no time.

After the job is done, Carolina Roofing will also make a free annual inspection to make sure your roof is handling the stress of its environment.

INSURANCE CLAIMS FOR ROOFING

Roof damage is an unexpected expense that no homeowner wants to deal with. Fortunately, your insurance company may cover all or most of the cost. When you need to file a home insurance claim for roof damage, reach out to Carolina. If a severe storm has damaged your property, you should have us inspect your roof ASAP. Your roof insurance claim is more likely to be approved if you act quickly.

WHAT TYPES OF MATERIALS CAN WE WORK WITH?

We're capable of using a variety of roofing materials. Get in touch with us when you need a:

- **SHINGLE ROOF INSTALLATION**
Complement your home with attractive shingles.
- **METAL ROOF INSTALLATION**
Metal is known for its durability and extended life.
- **FLAT ROOF INSTALLATION**
Get a dependable roof installed at your work facility.

ROOFING FREQUENT QUESTIONS & ANSWERS

HOW OFTEN SHOULD I REPLACE MY ROOF?

Different types of roofs last longer than others. Depending on the type of roof you have, the average lifespan can vary considerably. For instance, asphalt shingles typically last 15-30 years, while less common slate roofing can last up to 100 years. When browsing for roof replacement services make sure to mention the type of roofing material that your home has. If you've gotten in touch with a professional roofer like Carolina Roofing, they should be able to tell you the average lifespan of your type of roof.

For a rough estimate of the lifespan of different roofing types, consult the list below:

Asphalt Shingles: 15 to 30-year lifespan

Tile Roofing: 50 to 75-year lifespan

Slate Roofing: 75 to 100-year lifespan

Wood Shingles: 25 to 30-year lifespan

Metal Roofing: 50 to 75-year lifespan

NOW WHAT DO I DO TO START THE PROCESS?

If you have storm damage, leaky roof, or your roof covering has aged and needs to be replaced, we encourage you to contact us to get your roof fully inspected. By doing this it gives you, the homeowner, an idea if your roof can be completely paid for by your insurance.

Next, with your approval we will contact a public adjuster to represent you as the homeowner and negotiate with the insurance to make sure that they're doing their duty in replacing your roof with the best materials on the market.

Once your insurance has made assessments and we have met, it will be time to discuss the type of roof covering & color you would like to get installed. With our knowledge on roof options and your house, we will be able to support and help in the decision of which covering is best for your house economically and what look is going to please you.

CAN WATER DAMAGE LEAD TO BIGGER ISSUES?

You can risk severe damage to your home's interior from an unkept leaky roof. While it's meant to last for 20 to 30 years on average, it's important to repair storm damages and stay up to date with maintenance.

HOW TO CHOOSE A RESIDENTIAL ROOFING CONTRACTOR?

Working on a home's roofing system isn't something that anyone should ever take lightly. A roofing system is designed to protect your interior space. Your roof is created to protect all of the people who enter that interior space on a daily basis. If you have any kind of need for professional roofing system service, then you should search for help from the right experts. You should never approach the hiring process in a thoughtless or impulsive manner.

CAN SOLAR PANELS PROTECT YOUR ROOF?

During the summer months, solar panels will actually help keep the covered portion of your roof cooler than other portions. For instance, according to research conducted by Dr. Jan Kleissl, the panels keep your home up to five degrees cooler in the summer than homes without panels. What is important is that according to the United States Department of Energy, each degree set on your thermostat equals approximately one percent of your overall energy bill. If you can lower or raise your thermostat five degrees and pay an average of \$140 per month on heating or cooling, respectively, you can save, on average, a total of \$84 per year.

FULL ROOF REPLACEMENT ESTIMATE

INCLUDE:

Tearing off your old roof covering

All materials needed to replace your roof with the Roof Covering of your choice

All Vents, Boot Pipes, and any other type of ventilation (all pipes are painted to match roof color)

Cleaning up all trash, rolling magnets over yards and driveways to pick up any tacks, and hauling off all debris

NOT INCLUDE:

Since there is no way to know just how bad your roof is under your current covering until it's removed, WOOD DAMAGE is NOT included in your Roofing Estimate. Wood damage will be replaced at an extra cost.

Fascia Board that is rotten can be fixed at homeowners request but is not included in your initial estimate.

NEW GUTTER INSTALLATION

Are your gutters outdated or in need of repair? Look no further! Our expert team specializes in installing gutters of all shapes and sizes on homes both large and small. With our seamless gutter fabrication process, we ensure a perfect fit for your home.

Our process starts with careful measurements of the sections of your house where the new gutters and downspouts will be installed. Using these precise measurements, we fabricate brand new gutters on-site, ensuring a seamless and leak-free installation.

Our skilled installers then go up the ladders and expertly install your gutters, fine-tuning the slope towards the downspouts for optimal rainwater removal and performance. We can also connect to your existing underground drains or install a rain barrel if you prefer an eco-friendly option.

We take pride in our attention to detail, and cleanup is a top priority for us. Our crew visually inspects the property multiple times to ensure we leave nothing behind. We are also mindful of your landscaping and pets, ensuring a hassle-free experience for you.

Upgrade your home's gutter system with our professional installation service. Say goodbye to leaks and water damage, and enjoy peace of mind knowing your gutters are in expert hands. Contact us today for a free estimate!

PROTECTING YOUR HOME FROM WATER DAMAGE

Dirty gutters and downspouts can lead to a host of issues, including water damage to your house and siding. Our thorough gutter cleaning services ensure that water from your roof is directed away from eaves, fascia, and siding, preventing rot and damage to porous surfaces and underlayment. Protecting your home is our top priority.

Our team of trained professionals is equipped with the right tools and expertise to provide thorough and efficient gutter cleaning services. We prioritize safety and quality in all our work, ensuring that your gutters are cleaned effectively without causing any damage to your property.

Don't neglect the importance of clean gutters in protecting your home from water damage. Trust our professional gutter cleaning services to keep your gutters clean and functional, providing you with peace of mind and a well-protected home. Contact us today to schedule your gutter cleaning appointment and ensure your home is safeguarded from rainwater runoff and potential damage.

ADDITIONAL GUTTER CLEANING SERVICES:

In addition to standard gutter cleaning, we also offer a range of additional services to keep your gutters in top condition. This includes wiping the exteriors of gutters to remove dirt and grime, collecting debris such as leaves and dirt from gutters and disposing of them at a landfill, and washing the insides of gutters with water from a hose to ensure they are clear and functional.

GUTTER GUARD INSTALLATION

SAY GOODBYE TO CLOGGED GUTTERS

Our Gutter Guard Installation service is the solution you've been looking for. No more climbing ladders to clean out debris from your gutters. Our licensed experts will recommend the best gutter guards to keep leaves and other debris from clogging your gutters and downspouts.

Not only do our gutter guards keep your gutters clean, but they also extend the lifespan of your gutters by preventing damage from debris buildup. You can save time, money, and effort on costly repairs and maintenance in the long run.

Most of the gutter shield systems that we offer are installed directly onto existing gutters, so if you choose to keep your existing gutters, we'll make sure they're secure and sound. Trust us to thoroughly clean your gutters before installing gutter guards, so you can enjoy peace of mind and not have to worry about gutter maintenance.

Don't let clogged gutters damage your home. Contact us today for the best Gutter Guard Installation service and protect your gutters and downspouts from debris all year round!

FASCIA & SOFFIT INSTALLATION

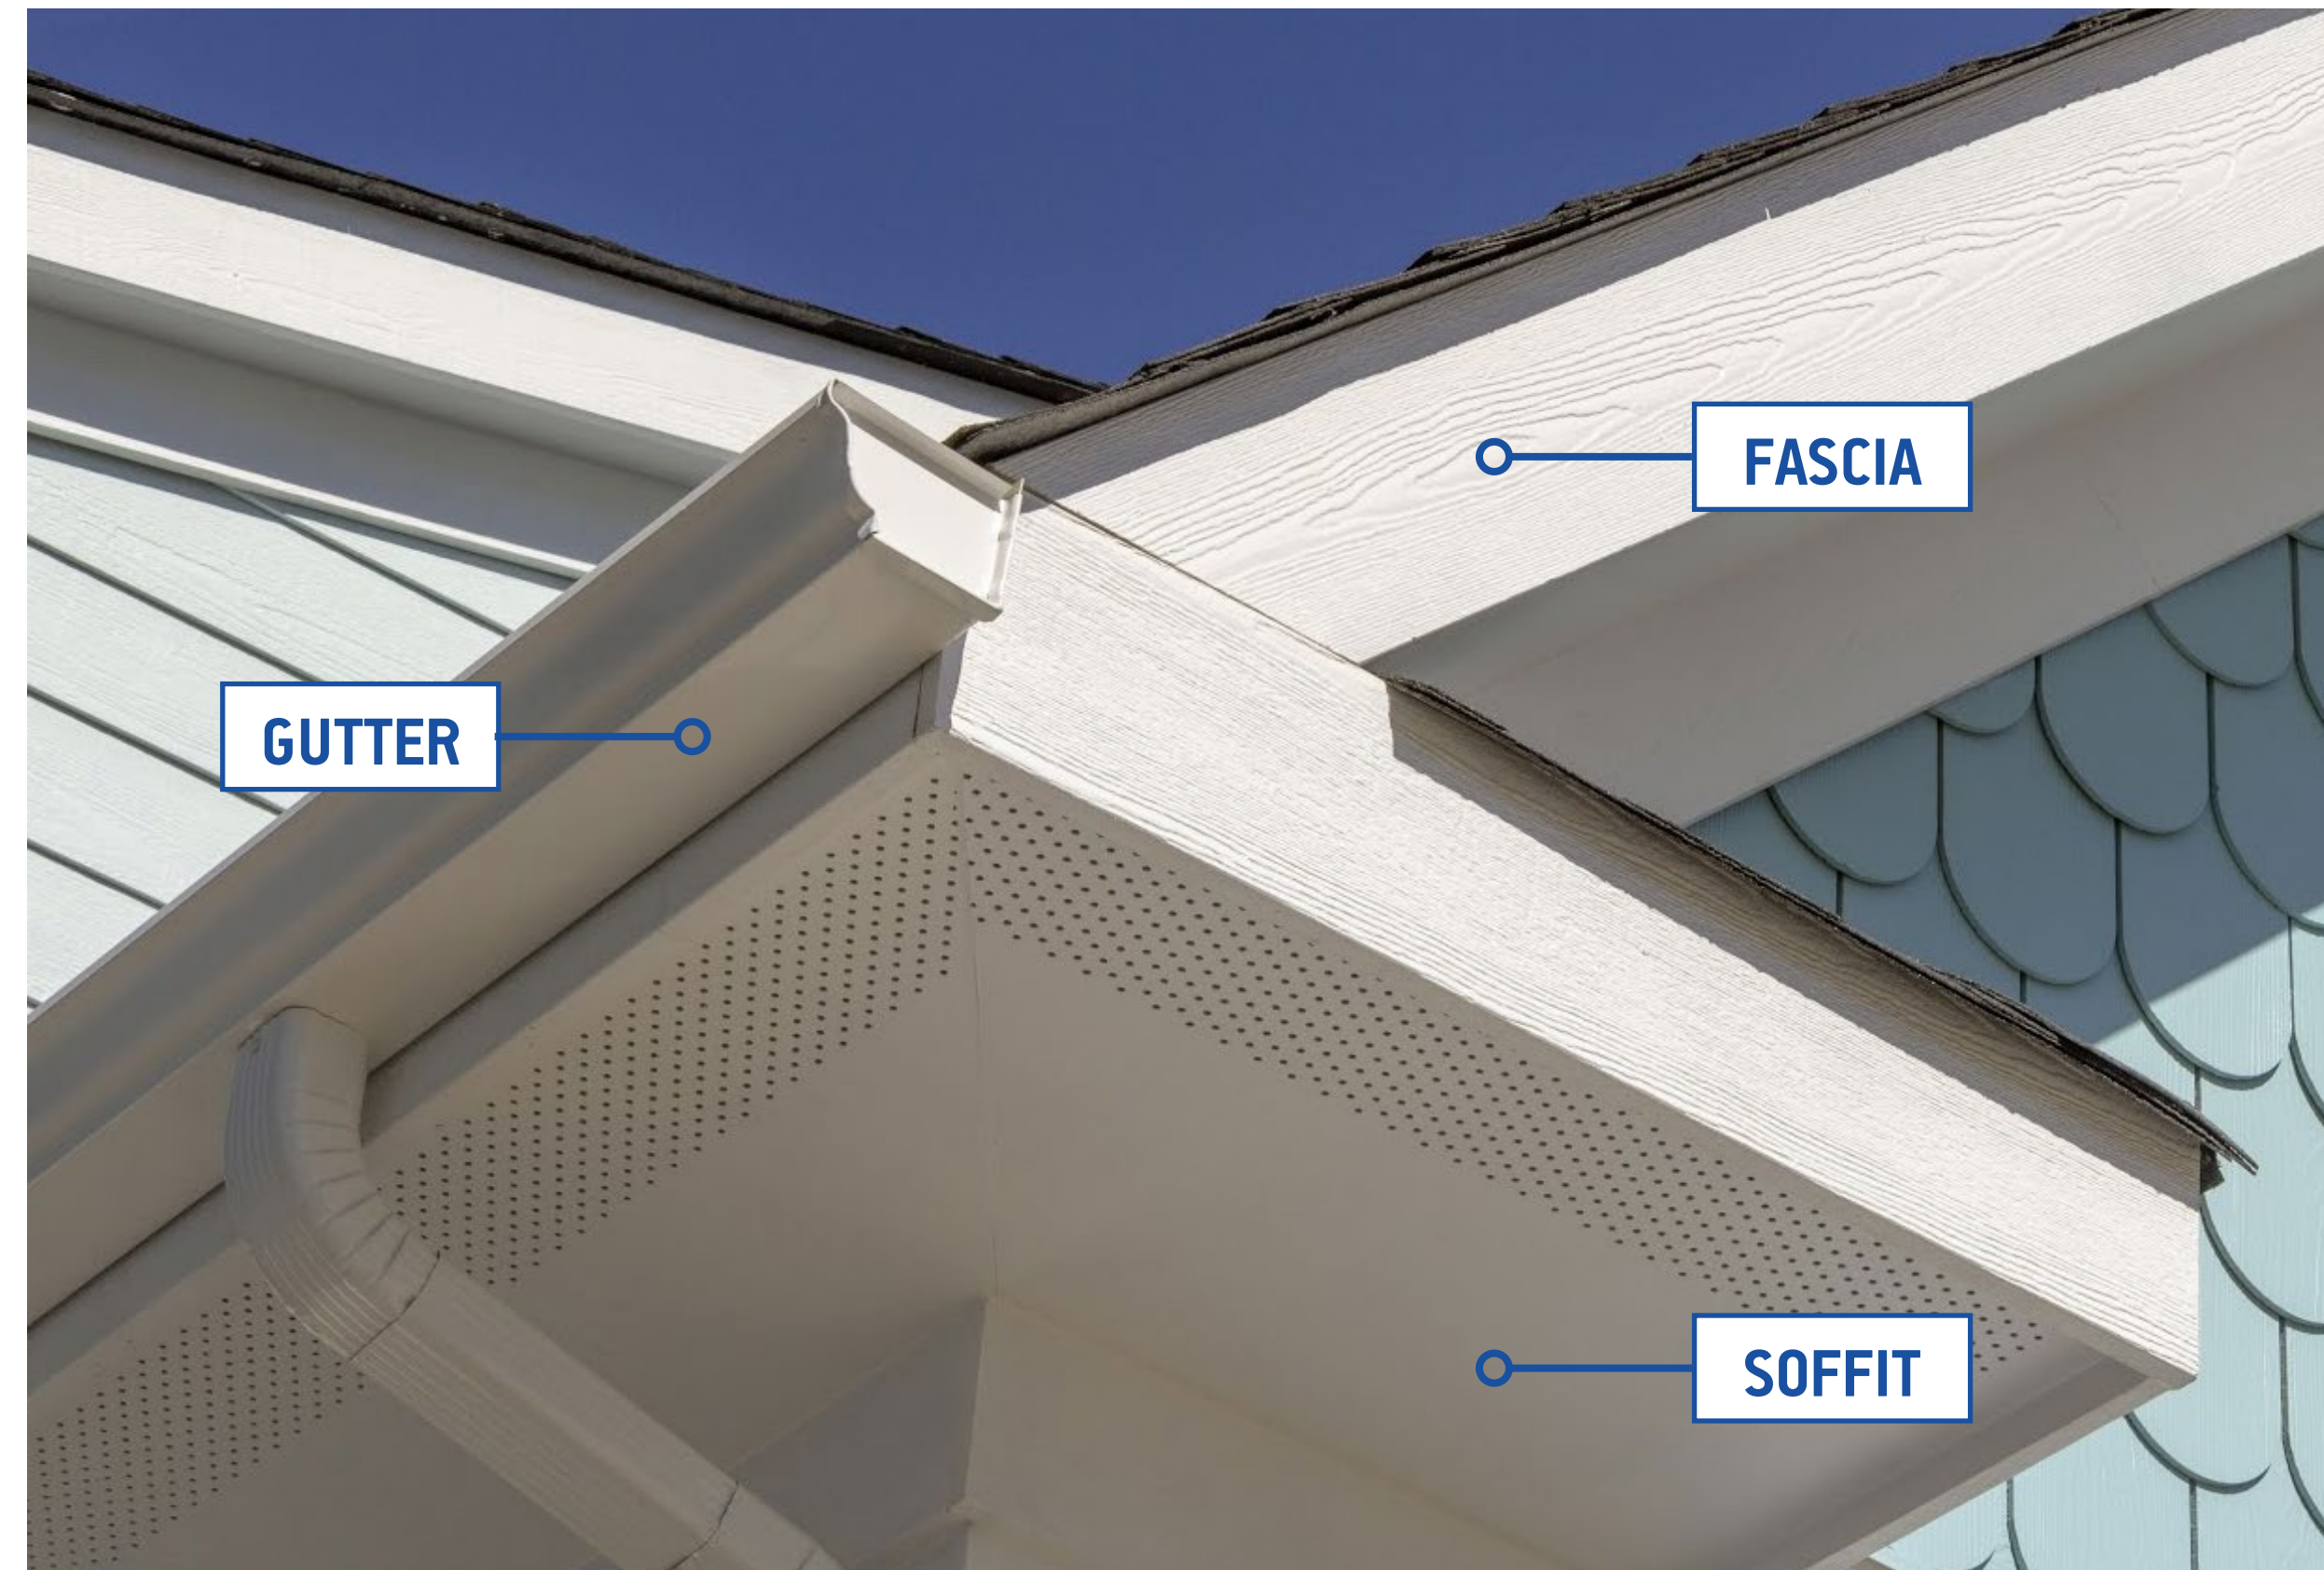

ENHANCE THE BEAUTY AND SAFETY OF YOUR HOME

At our company, we go beyond ordinary gutter replacement. Our skilled crews are equipped to handle fascia board repair, rotten wood replacement, and soffit replacement to ensure your home looks refreshed and stays protected.

Fascia boards are the boards to which your gutters are attached, serving as a finishing edge between the roof and the outer walls of your home. On the other hand, soffit refers to the

material used to cover the underside of the eaves, providing ventilation and protecting the roof from moisture damage.

Over time, fascia boards can become rotten due to exposure to the elements, pest infestations, or other issues. This can lead to gutters pulling away from the fascia, causing a dangerous situation and potential damage to your property. This is where our expert services come in.

Our experienced crews are skilled in repairing fascia boards, replacing rotten wood, and installing new soffit to complete the refreshed look of your home. We use high-quality materials and techniques to ensure durability and longevity, so you can have peace of mind knowing your home is well-protected.

Not only do our services help in maintaining the structural integrity of your home, but they also enhance its aesthetic appeal. Our team is experienced in matching the fascia and soffit materials with the existing style and color of your home, ensuring a seamless and cohesive look.

By choosing our fascia and soffit services, you are investing in the beauty and safety of your home. Don't let rotting fascia boards compromise the integrity of your gutters and risk further damage to your property. Trust our skilled crews to provide expert repairs and replacements that will add value and protection to your home.

Contact us today to schedule a consultation and let us help you with your fascia board repair, rotten wood replacement, and soffit replacement needs. Our team is ready to provide top-notch service and transform your home into a safer and more beautiful space.

WINDOWS & DOORS

LET OUR EXPERTS GUIDE YOU TO THE RIGHT WINDOWS AND DOORS

We bring you window and door expertise to the Research Triangle. We serve residents of Raleigh, Durham and Chapel Hill as well as the surrounding communities of Apex, Cary, Creedmoor, Garner, Henderson, Holly Springs, Knightdale, Morrisville, Smithfield, Wake Forest, Youngsville and Zebulon.

Our team expert's have been providing homeowners in the Research Triangle area and beyond with high-quality windows and doors proven to last. Whether you're looking to update your mid-century modern home with expansive multi-slide patio doors, or just looking for a replacement sliding door, we can help.

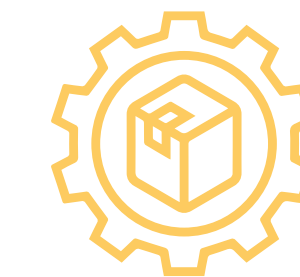

WE KNOW HOW TO MAKE YOUR HOME'S ARCHITECTURE SHINE IN 4 STEPS:

1. CONSULTATION

Your free, in-home consultation is provided to you with no obligation. Our replacement window and patio door specialists will listen to all of your needs and provide you with both beautiful design options for your home. As well as efficient ways to make the most of your money.

2. MANUFACTURING

We will inspect your home's current window and patio door situation. Our window & patio door installers will ensure accuracy of measurements and answer any last-minute questions before sending in the order for your fully customized replacement windows and patio doors.

3. INSTALLATION

Our window installation technicians expertly fit your custom windows into your home. This process takes precise measurements and professional installation to ensure that your windows and patio doors are properly fitted to their exact openings. Our Installers treat your home as if it were their own and clean up afterwards.

4. CUSTOMER CARE

When all the heavy lifting is done, our installers will walk you through a product demonstration and provide you with tips on operation, care and maintenance. We also handle any service issues that may arise, such as patio door adjustments or window maintenance questions.

HARDIE PLANK SIDING

James Hardie Plank Siding is one of the most widely recognizable siding options in the country. With many different options of Hardie Plank Siding to choose from, our design experts will meet with you to find the perfect siding for your home.

This innovative high-performing fiber cement siding is treated using a patented "Baked-on ColorPlus Technology", which provides excellent resistance to fading, cracking, or chipping. Homeowners benefit from James Hardie Siding with its incredibly low maintenance requirements over the years.

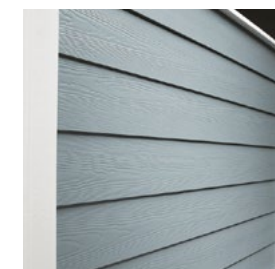

Hardie Plank Siding is built to last through generations. It can withstand all climates from the coldest and harshest northern winters to wet and rain-filled southern summers. These beautiful siding products will make old homes look modern again.

As with any siding, proper installation is a must. The expert installation process will ensure that your siding replacement is done right. At the end of your project, we will do our quality control check to ensure that everything is up to our high standard of performance.

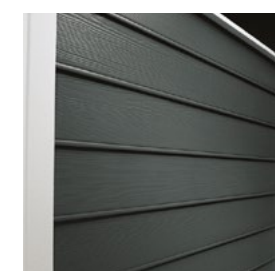

HORIZONTAL SIDING

Traditional lap

Traditional lap siding is laid horizontally, with the bottom of each board slightly overlapping the board below it. This is the most common type of horizontal siding.

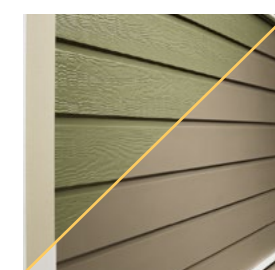

Beaded

Beaded siding consists of horizontal boards with a small, bead-like strip running between each board.

Beaded cedarmill is inspired by coastal communities, while beaded smooth gives your home a modern, contemporary look.

Custom Colonial™

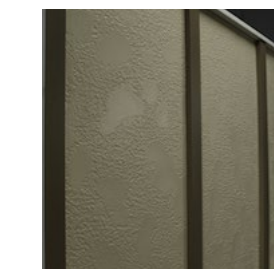

Hardie's Colonial™ siding offers a classic Dutch lap style with horizontal boards and skinny, inverted

segments for an authentic, historical look. Choose from smooth or roughsawn finishes.

HARDIEPANEL® VERTICAL SIDING

Stucco

Hardie provides the comforting, classic look of stucco with the benefits of fiber cement. This look provides you with an intricate, unique texture different from wood grain.

Sierra 8

This vertical style is similar to Custom Colonial™, with smaller dividends between the boards. Sierra 8 is

available as smooth or select cedarmill and elongates your home, providing dimension without complication.

HARDIESHINGLE® SIDING

Straight edge panel

Small shingle boards cut at varying widths but the same length to give a sharp edge to each horizontal line. This style provides a classic yet rustic look for your home.

Staggered edge panel

This style is laid without horizontal lines, creating a beautifully chaotic look. Ideal for ranch homes or

cottages, the staggered pattern adds visual interest and charm to any space.

Scalloped

Get the perfect blend of history and coastal vibes with this fish-scale look. Crafted from small shingle boards with rounded edges, this classic style adds a touch of nostalgia to your home's aesthetic.

VINYL SIDING

The siding of your home not only acts as a barrier against mother nature’s elements, but it also increases your home’s curb appeal. This is why it’s important to make sure that your siding is installed by the local leading experts in the business. Carolina has a long history of providing exceptional siding installation services in all three of our markets: greater Raleigh, Cary, and Wake Forest.

We offer high-quality siding replacements using top brands such as Alside and CertainTeed. This ensures that your siding will not only look great but will withstand time

and the elements. These brands also offer the best warranties in the industry. We offer dozens of styles including shake and shingle, stone-faced, vertical, board and batten, and more. You can even choose an insulated siding to act as a noise barrier to your home.

We have very high standards at Carolina Dumpster Rentals & Roofing and we do quality control checks at the end of your project to make sure everything is up to our standards before we are done.

Clapboard

Clapboard siding was first used in the U.S. in Colonial times, and is a traditional method of siding a house. It was used on some

of the most historic homes in the country. It is often called lap siding or horizontal siding. Clapboard siding is designed with long, narrow boards of around 4”. These planks are nailed lengthwise to the wall of the house. They overlap each other top to bottom and look like wood in texture and profile. The overlap of planks produces a shadow line that creates an interesting profile. It is more subtle than other siding options that also overlap.

Traditional Lap

Similar to clapboard siding, traditional lap is made of broad planks of 6” to 7”. These, also, overlap. Each plank is wedge-

shaped, being narrower at the top than the bottom. The planks are installed starting at the bottom of the wall, and the thicker bottom edge will overlap the bottom plank. This sheds water very efficiently, protecting the structure beneath. This pattern creates stronger shadow lines than regular clapboard.

Dutch Lap

Dutch lap siding takes the traditional lap to the next level. The angle of the bevel is sharper, creating

more of a contrast between the planks. The troughs in the overlapped areas are deeper, creating an even stronger shadow line. The goal with Dutch lap is to create a hand-carved look. This hand-made looking plank will create deeper shadows and smoother lines. Usually, these planks will be 4” or 5” wide. Vinyl siding is manufactured in sheets that mimic the look of Dutch lap and traditional lap siding. Rather than going up one plank at a time, it is installed one section at a time.

Smooth

When people consider vinyl siding, they usually visualize smooth siding.

There is no texture on the surface. This is a great choice for modern architecture because of its clean lines. It is also available in many colors.

Wood Grain

Vinyl siding can also be manufactured with wood grain. It is available in both horizontal and vertical installation and looks like wood that has been stained.

It is, however, more durable than wood, which can absorb moisture and rot.

Beaded Seam

With beaded seam siding, you have an even more interesting shadow line. Each plank of siding has a rounded notch cut into the bottom edge.

When siding planks were handmade, this was a very expensive feature and only found on very upscale homes. Beaded seam has a very clean look, and is great for traditional homes. Any home looks nice with beaded seam planks, as the bead accents the lines well. This siding, also, is available in a broad choice of colors.

Board & Batten

Also called barn siding, board and batten siding is the widest of all, with planks of up to 12 inches wide. The boards are installed either vertically or horizontally, with narrow strips of wood nailed over the gap between the boards.

Cedar Shake

Cedar shakes are a traditional siding option and were originally made by hand. Workmen would chop a cedar log lengthwise to obtain wedge-shaped sections of cedar that would then be

attached to the wall. They are very rough and have a lot of texture, which makes them unique. Real cedar shakes are a rich color, but over the years, they dry out and turn gray. They also must be maintained with fresh stain every few years. With vinyl siding manufactured in sheets to look like cedar shingles, you can have the look without the upkeep. You also have your choice of colors with the vinyl selection.

EXTERIOR PAINTING

Your home’s exterior is the first thing people see, and a fresh coat of paint can instantly boost your curb appeal and increase your home’s overall value. At Carolina dumpster rentals & Roofing, we specialize in residential and commercial exterior painting, and our experienced crews are ready to transform your property with efficiency and professionalism.

ONLY THE BEST PAINTS FOR YOUR HOME

We trust Benjamin Moore Paints® and Sherwin-Williams® brands for their quality and durability. Our team is committed to providing you with the perfect color match for your home’s exterior, and we offer free painting estimates to all our clients.

EFFICIENT AND PROFESSIONAL SERVICE

Our crews are trained and experienced in handling exterior painting projects of all sizes. We understand that your time is valuable, so we work efficiently to complete the job in a timely manner without compromising on quality. Our team takes pride in their attention to detail, ensuring a flawless finish that will make your home stand out in your neighborhood.

RESIDENTIAL AND COMMERCIAL PAINTING

Whether you need to update the look of your home or enhance the appearance of your commercial property, we have the expertise to handle both residential and commercial exterior painting projects. We understand the unique requirements of each type of property and can recommend the right paint and finish for your specific needs.

FREE PAINTING ESTIMATE

We believe in transparent pricing, and that’s why we offer free painting estimates to all our clients. Just give us a call to schedule an appointment, and our team will come to your property, assess the scope of the project, and provide you with a detailed estimate, including the cost of materials and labor.

ENHANCE YOUR HOME’S CURB

Don’t let outdated and worn-down paint detract from the beauty of your home. Trust the experts at Carolina dumpster rentals & Roofing for professional and reliable exterior painting services. Contact us today to schedule your free painting estimate and let us transform your home with a fresh coat of paint that will make it the envy of the neighborhood.

POWER WASHING

RESTORE YOUR HOME'S BEAUTY

If you're like most homeowners out there, you take pride in keeping the exterior of your home clean and looking its best, but over time, build-up of grime, mold, mildew, and other contaminants can make it difficult to do so.

As the leading pressure washing company serving the area, we understand that a lot goes into maintaining a clean and good-looking home, and with our wide range of high-quality pressure washing services, you have the tools you need to keep yours looking its best.

Whether you're in need of pressure washing for your home's siding, roof cleaning, or even gutter cleaning, you can count on the pros here at Carolina dumpster rentals & Roofing to get the job done right. Give us a call today. Our team of experts are always standing by and would be happy to assist you in any way we can.

CONCRETE WASHING

While it can be tempting to think that your concrete surfaces don't need thorough cleaning thanks to their durable nature and the fact that most debris can simply be swept off, concrete is highly porous, and because of this, some contaminants can slip beneath the surface where they can threaten the safety of your surfaces and cause them to deteriorate. If your home's concrete surfaces are looking dingy or have become slick, it's time to call in the skilled pressure washing professionals here at Carolina dumpster rentals & Roofing.

MASONRY & STONE

Welcome to Carolina Dumpster Rentals & Roofing, where we provide top-notch stone mason and brick services to keep your home looking its best at affordable prices. With our extensive range of masonry services, we can help you add personalized touches to your home, creating a unique outdoor atmosphere that adds value and enhances its beauty.

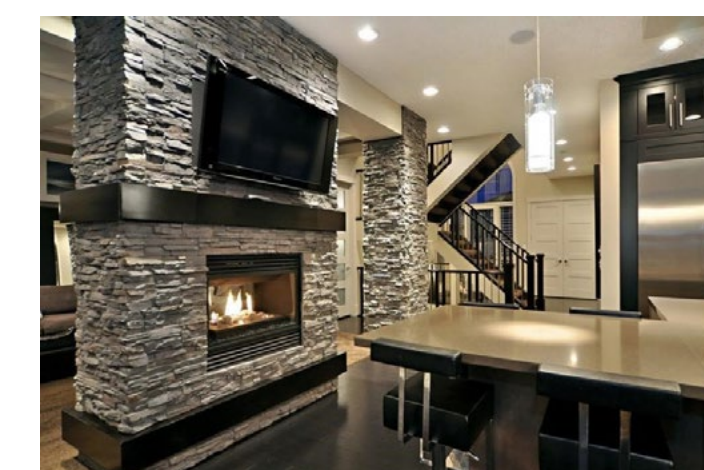

As homeowners, we understand that your house is more than just a structure; it's a reflection of your personality and style. That's why we offer a wide range of masonry options beyond basic bricklaying, using high-quality materials such as stone and concrete to bring your vision to life. Our experienced contractors are experts in working with different types of masonry materials and installations, ensuring that you get the best results for your stone, concrete, and brick construction projects.

When it comes to finding reliable masonry contractors in the greater Raleigh area, we are the top choice. We strike the perfect balance between

quality and cost, providing you with the best value for your investment. Our goal is to help you save on your home construction needs, from hiring affordable bricklayers to creating custom outdoor spaces that elevate the aesthetics of your property.

In addition to our wide range of services, we are committed to offering the best prices possible. We understand that budget is an important consideration for homeowners, and we strive to provide cost-effective solutions without compromising on quality. Whether you're planning a new backyard installation or need affordable repair options, you can rely on us to deliver exceptional results within your budget.

So why wait? Choose Carolina Dumpster Rentals & Roofing for all your masonry needs and experience the difference of working with the best brick mason Raleigh has to offer. Contact us today to discuss your outdoor construction project and start saving on your home renovation journey.

One of the advantages of choosing us is that you don't need to hire multiple contractors for different home renovation projects. We offer comprehensive masonry services.

FENCE INSTALLATION

Quality fencing materials and installation for your home or business. We stand out among fencing contractors in the greater Raleigh area by responding to our customers' needs. Sure, it sounds simple, because it is. We answer our phones. We return calls. We keep our word. And, we service our products after completion.

YOUR SATISFACTION IS THE MEASURE OF OUR SUCCESS.

Carolina is the Carolinas' premier fencing contractor. We are proud to offer you the highest quality of services, including:

- Free estimates.
- Multiple fencing options, types, and styles.
- Quality, professional installations.
- Fully licensed and insured professionals.
- 100% American made products and materials.

WHAT TYPE OF FENCE IS RIGHT FOR ME?

VINYL

Fabricated from the highest quality certified vinyl. Our vinyl fences are ideal for privacy.

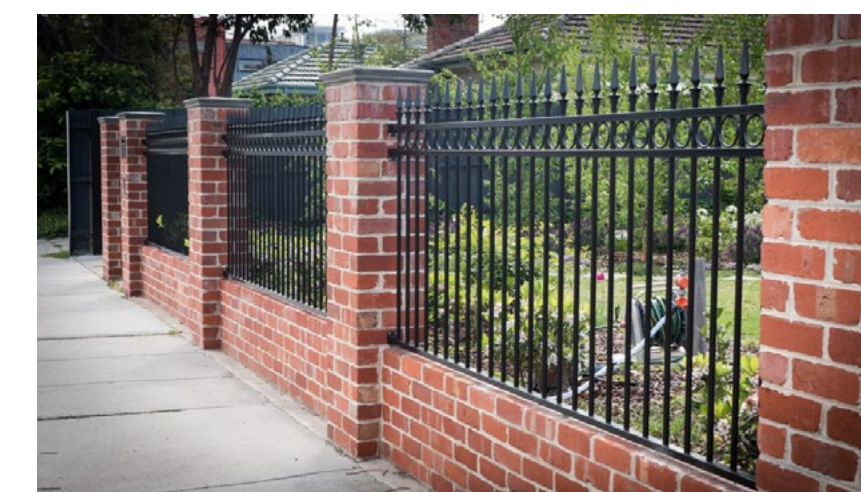

WOOD

Pressure treated for longevity, our wide variety of wood options include split rail, picket, ranch rail, privacy, shadow box, scalloped, flatboard, and more.

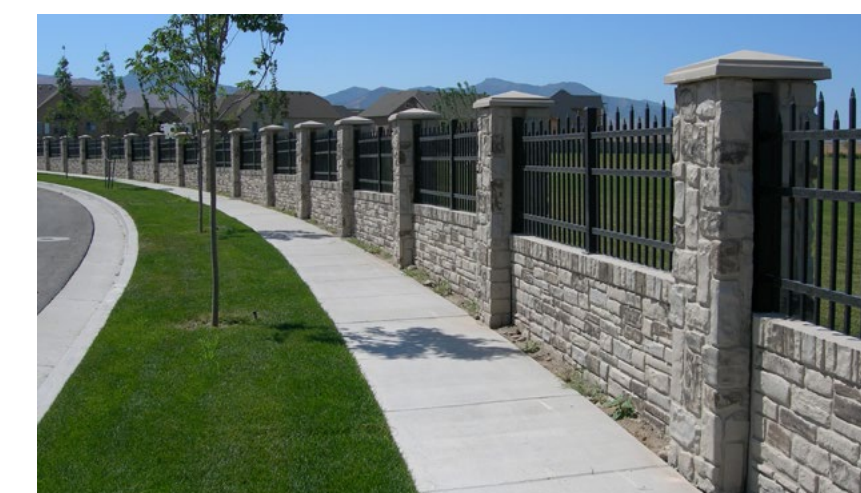

CHAIN LINK

With a wide range of heights and mesh sizes, chain link provides an affordable fence option for years of protection and value.

BRICK

Often combined with other fencing materials such as wood or metal, our masonry fences offer a stately design and enhance security to a property.

STONE

A modern masonry option, stone fencing offers superior durability and pairs beautifully with metal materials and custom entry gates.

ASPHALT SERVICE

QUALITY, AFFORDABLE ASPHALT PAVING SERVICES

We provide Raleigh businesses & residents with high-quality pavements. With decades of experience, we offer the best customer service, top-rated pavements, and a unique experience

WHY CHOOSE ASPHALT?

Asphalt is cost-effective and easy to maintain. It’s recyclable and can be installed at a lower cost for expansive pavements. It can last up to 30 years with proper maintenance.

- Asphalt is cheaper to install and requires affordable maintenance.
- Asphalt offers a surface that is less prone to staining.
- Asphalt is weather resistant and affordable to repair.

Not sure which pavement is right for your project? Give us a call for more information. We prioritize safety and comprehensive project management. Our services include:

- Parking Lots, Access Roads, and Driveways
- Pool Decks
- Commercial warehouse Flooring
- Public Streets— built to municipal specifications

HOA’S: WORK WITH AN EXPERIENCED RESIDENTIAL PAVING CONTRACTOR

We offer new pavement installations and repair/ maintenance services in Raleigh:

- Asphalt & Concrete Driveway Installation
- Driveway Crack and Pothole Repair
- Residential Development Roadways
- Curbing and Sidewalks
- Driveway, Patio, and Blacktop Sealcoating

We can handle projects of all sizes. Whether you’re an HOA or Construction manager, we’re here to help.

CALCULATING THE COSTS FOR YOUR ASPHALT NEEDS

Not sure which pavement is right for your project? Don’t sweat it! Just give us a call, we will be happy to provide you with all the information you need to make the best decision.

CONCRETE SERVICE

BENEFITS & USES OF CONCRETE

Concrete is durable and requires minimal maintenance. It's versatile, low-impact environmentally, and fire-resistant.

Concrete offers many advantages over asphalt and other materials. Concrete is a more versatile, reliable, and durable solution for your paving needs. Not to mention, concrete provides an aesthetically pleasing appeal with a clean finish.

WHY WORK WITH US?

Carolina Dumpster Rentals & Roofing has been providing affordable, high-quality concrete pavements in Raleigh for over a decade. We are committed to continuing to partner with the community to build beautiful, long-lasting paving solutions that last decades to come!

CALCULATING THE COSTS

Concrete pavements may be more expensive to install, but they last 20-40 years with minimal maintenance. We provide a no-cost, no-obligation quote.

WHAT OTHER CONCRETE SERVICES CAN WE PROVIDE?

It's essential that businesses keep up to date with maintenance to keep the quality of their pavement looking healthy. We know you spend a lot of time and money investing in your pavement that's why at Carolina we offer maintenance and repair services to make sure you get the most out of your investment! As a full-service paving and concrete contractor, you can rest assured that your next concrete project is a success.

- Industrial Pavements and Loading Docks
- Concrete Driveways & Walkways
- Parking Garages & Structural Concrete
- Framework & Formwork
- Maintenance, Repair, and Beautification
- Excavation & Demolition
- Curbing

When you choose Carolina Dumpster Rentals & Roofing, you not only benefit from our experience craftsmanship, and professionalism, but we also work with you to keep our pricing competitive and affordable. Our concrete driveway services include decorative stamping, flagstone, pavers, & patterns. If you're concerned about crumbling, cracked, or stained concrete, call the experts at Carolina.

FLOORING SERVICE

Are you ready to update the look and feel of your home? Perhaps add some attractive and modern new elements? If so, it may be time for new floors. The right kind of flooring can drastically change how a room looks and feels, so why not start from the ground up? Literally! There are many options to choose from when it comes to shopping for a new floor, especially if you're looking for something hassle-free and low-maintenance. At Carolina we can help you through the process, from choosing a flooring option through the final install.

QUALITY FLOORING & INSTALLATION

No matter what your flooring budget is, you can be sure that Carolina will perform each and every job with quality and professionalism. We use only the best flooring products and pride ourselves on being the best flooring contractors to install your residential or commercial flooring. If you are looking to install economical tile flooring in your laundry or mudroom, or luxurious marble in your kitchen or dining room, Carolina will leave you satisfied with the result! All our work is guaranteed.

LAMINATE FLOORING

Laminate flooring is a great alternative to hardwood and other natural materials, especially where budget is concerned. The good news is that you don't have to sacrifice quality or style. Laminate flooring is simple to maintain, which makes it a great option for homes with lots of traffic from pets and kids.

TILE FLOORING

Tile flooring is a timeless and classic option, with a wide variety of uses, patterns, and designs. Because of that, tile can compliment almost any room or space, from living rooms and outdoor areas, as well as kitchens and bathrooms. It can even upgrade the look of your fireplace! Tile gives you a lot of options for materials and designs, so you can choose the right option for your project.

VINYL FLOORING

Known for its durability, stain resistance and ease of cleaning, vinyl flooring is stylish and budget friendly. It makes a great choice for affordable flooring that resembles real wood, stone or tile. It works great in rooms with a lot of traffic in your home.

HARDWOOD FLOORING

Hardwood flooring is a classic, and is long-lasting and eco-friendly. It can be installed in a wide variety of designs to suit almost any room and add value. If it's properly installed and well maintained, hardwood flooring can be a very wise investment.

BUFF & COAT HARDWOOD

Properly maintained hardwood floors can last a lifetime. We recommend buff and coat every 3-5 years to keep your floors beautiful. It's a low-cost, hassle-free alternative for maintaining hardwood floors. We use high-tech equipment to buff away scuffs and scratches, eliminating wear and tear. Additional services include sanding, staining, waxing, and more.

REFINISHING HARDWOOD

If your hardwood floor looks worn, it might be time to refinish. Water test can determine the extent of damage. Water sitting on top of the wood or being absorbed indicates the need for refinishing. Visible damage like stains or warped wood should be addressed before applying a new coat. Some finishes may not work with fresh polyurethane. Deeper gashes may need to be sanded before recoating. Severely damaged flooring may need to be replaced. We can refinish and restore your wood floor to its original shine and beauty.

DRYWALL SERVICE

At Carolina, we can help you with your drywall needs! From the installation to painting, to finishing, we give your home everything it needs to have the best drywall possible. Our drywall contractor will work with you directly to go over estimates and plans for your home before we get to work. Whether its drywall installation or remodeling you need, we can handle it all. For the best home and business drywall finishing in Raleigh, NC and the surrounding areas, contact us today!

DRYWALL REPAIR

Drywall problems always have a great story behind how they got there. While it is great to reminisce about the classic hole in the wall story, it isn't nice to be reminded of the story by constantly seeing the destruction. So, you could do a quick fix drywall repair yourself, but, as all quick fixes go, the problem quickly comes back with a vengeance. If you have a drywall problem, don't fix it yourself, call in a professional to make sure the problem never comes back.

SOME OF THE SERVICES WE PROVIDE INCLUDE:

- Smooth finishes on walls and ceilings
- Tape joints on walls or ceilings from age or stress
- Complete repair of any hole or cracks
- Taping and texturing
- Popcorn Ceiling Removal

CEILING REPAIR

Ceilings help shield us from all kinds of different bombardments that the world may throw at our homes. They go through countless different stressors, weakening their integrity, and causing different types of damage to their structure. From holding the weight of whatever may lie above, they are worn down, and, if not maintained properly, it can result in devastating ceiling problems.

So if you are having any problems with your ceiling, it's important to let a certified, trustworthy team take a look and repair the damage. Carolina provides the following services to wall or ceiling damages:

- Complete ceiling repair and respray
- Smooth finishes on walls and ceilings
- Popcorn or spray texture walls and ceilings
- Orange peel ceiling application
- Tape joints on walls or ceilings from age or stress (does not do removals)

Remember, your ceiling is the only wall in your entire home that is always 100% visible. Keep it in great looking shape and it will do the same for you.

Drywall holes can arise from a multitude of different issues. For example:

- Plumber had to cut a hole to fix a plumbing problem
- Someone was in the attic and stepped through the ceiling
- My ceiling is damaged from a roof leak
- The sink overflowed upstairs and has caused water damage on my ceiling
- My AC in the attic had a leak and now my ceiling damaged
- The kids were playing and accidentally put a whole in the wall
- I had some lights moved and now I have holes in my ceiling
- The cable man had to cut a hole in the drywall to run a cable

Regardless of the reason, we are the experts in drywall repair that fix anything from drywall damage caused by plumbing issues to massive holes caused by a person falling from the attic through the ceiling.

CABINET INSTALLATION

Find a cabinet that you absolutely love? Don't mess up your beautiful kitchen or bathroom trying to install it yourself. The experts at Carolina can help you take your home to the next level by installing quality cabinets that you can enjoy and count on for years to come.

OUR QUALITY PROCESS

We will first meet with you to make sure we get all of the details for your project finalized. This way we can ensure that we provide you with the desired outcome you are looking for when it comes to your cabinet wishlist!

When we install a cabinet in your kitchen, pantry, den, bathroom, or closet we will ALWAYS respect your home.

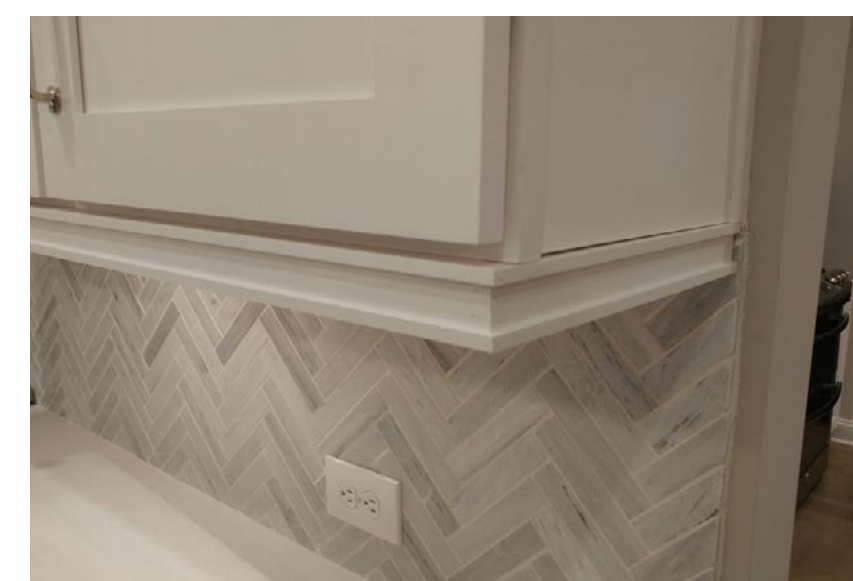

The Carolina team will ensure there is no debris or dust left behind after we have successfully installed the cabinets of your choice. After installation is complete, we will do a quality check to ensure your 100% satisfaction. Then it's time for you to enjoy the beautiful new addition to your home!

CUSTOM CABINETS & REFACING

Cabinets still in good condition, but want to change the look or add new functionality? Well, then Cabinet Remodel is a great option for you! You can completely transform your kitchen, bathroom, office, etc., with new doors, hardware, etc. With a wide range of materials, styles, and color selections, you will be able to select any desired look.

CABINET HARDWARE

- Hardware resources, provider of Jefferey Alexander and elements product
- Lines
- Top knob
- Customer supplied hardware

CABINET UPGRADES

Make upgrades to your existing cabinets without replacing them. Choose from both decorative and functional options.

- Crown molding in solid wood, painted mdf, and thermofoilcoated mdf
- Replace existing doors with drawers, including soft-close
- Light rail molding (add styling to wall cabinets and additionally hides hardware for under-mount lighting)
- Lazy susan, utensil bins, spice racks, door storage organizers, tray dividers, trash units, and more
- Add pullouts drawers
- Add additional new cabinets

We are here to not only meet your expectations but exceed them with quality service. Remodeling your kitchen, bathroom or closet cabinets can provide you and your home with several advantages:

- Amazing storage space
- An organization that makes sense for you and your home
- High-quality functionality
- Added value to your home

COUNTERTOPS INSTALLATION

GRANITE

Granite countertops are unique slabs of mined stone — no two granite stones are alike which is why this makes the perfect unique addition to your home! Not only is granite extremely unique, but it's also affordable, extremely durable, and beyond beautiful! Granite is a purely natural stone that comes directly from stone quarries and is then cut into thin slabs, polished, and fabricated into countertops.

QUARTZ

Quartz countertops make a beautiful addition to any home, and they can even add value to your home! These gorgeous stone countertops are stain-resistant due to their non-porous surface — this makes them low maintenance and eco-friendly!

MARBLE

Marble is a natural stone, so it's more resistant to scratching, cracking and breaking than many other available countertop materials. In spite of its durability, marble is softer than granite, so it's possible to incorporate attractive design elements, such as fancy edges, during the fabrication process.

CUSTOM CARPENTRY

Carolina Custom Carpentry is your go-to solution for all your carpentry needs. With our wide range of services, we can help you transform your home into a personalized oasis. Our team of skilled craftsmen specializes in creating custom-built carpentry solutions that are tailored to your unique space and style.

BUILT-INS FOR ADDED FUNCTIONALITY AND STYLE

Do you need additional storage or display space in your home? Our built-in wall shelving units are designed to fit seamlessly into any room, providing you with functional and stylish solutions for organizing your belongings. From bookshelves to display cabinets, our built-ins are crafted to blend seamlessly with your existing decor, giving your space a polished and cohesive look.

ELEVATE YOUR HOME WITH STUNNING FINISH WORK

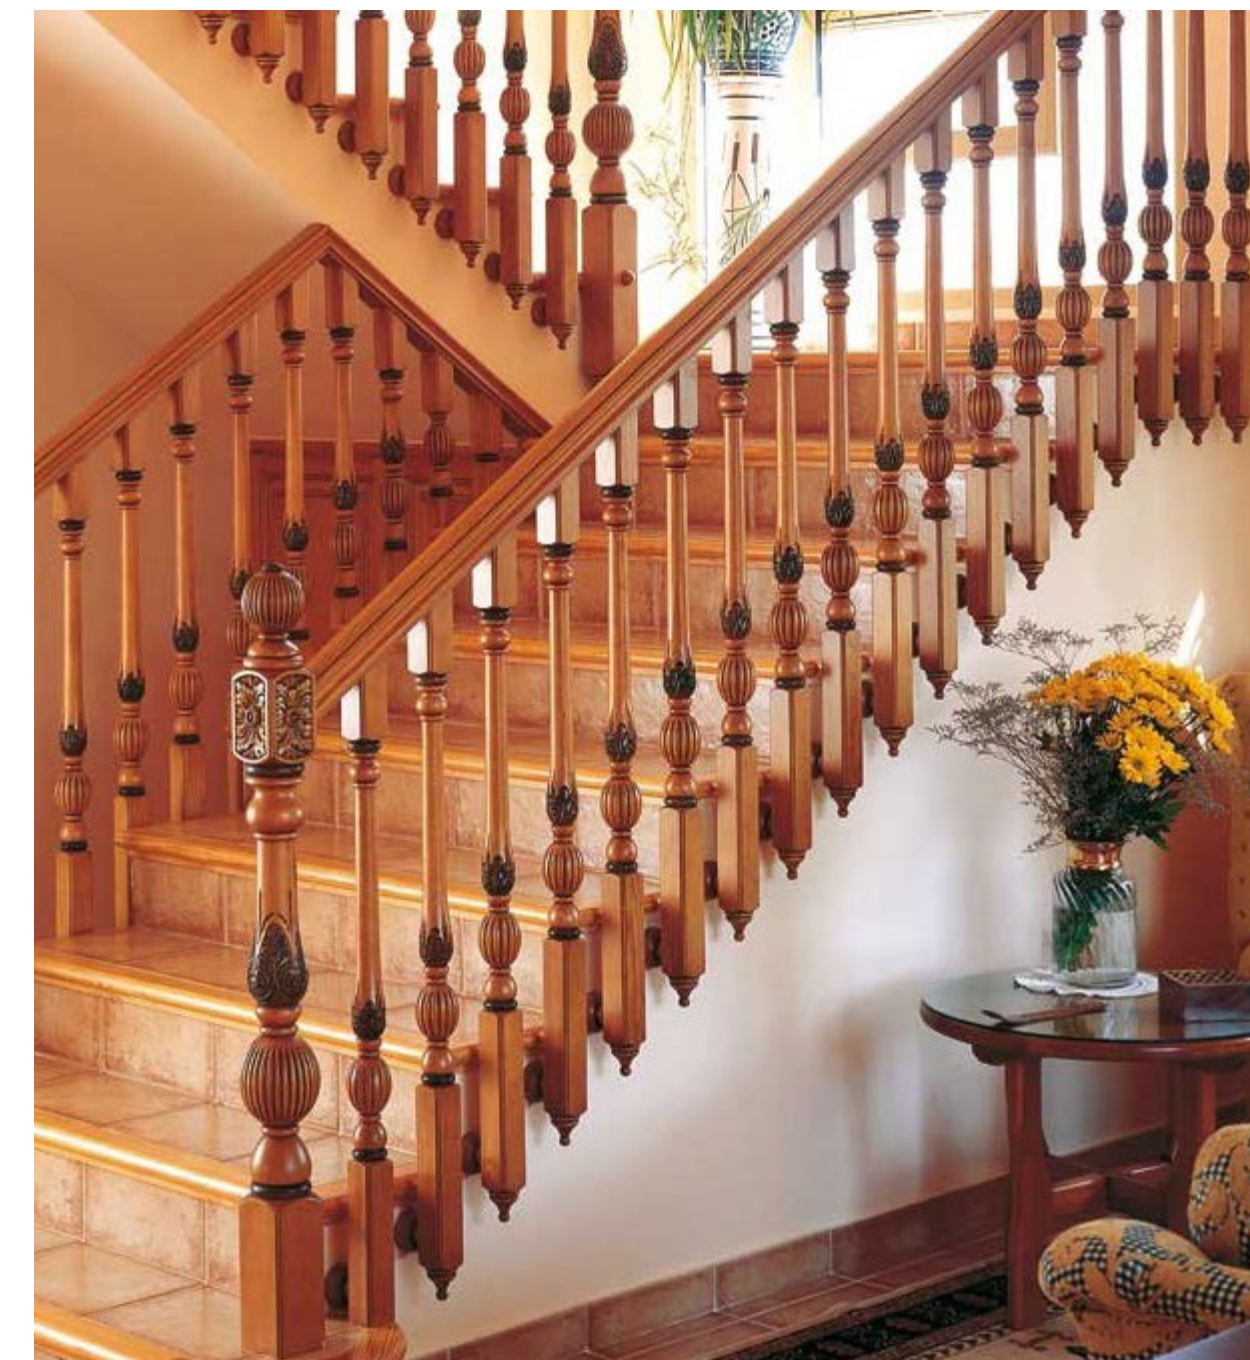

The finishing touches can truly make a difference in the overall aesthetics of your home. Our expert craftsmen offer a wide range of finish work options, including accent walls, trim, and moulding. Whether you want to add a touch of elegance with crown moulding or create a focal point with an eye-catching accent wall, our finish work services can help you achieve the customized look you desire.

ADD CHARACTER AND CHARM WITH WOOD BEAMS

Wood beams can add warmth, character, and charm to any space. Our team can install wood beams on your ceiling, creating a focal point that draws the eye upward and adds visual interest to your home. Whether you want to create a rustic vibe in your living room or add a touch of sophistication to your dining area, our wood beam installation services can help you achieve the elevated look you've been dreaming of.

CUSTOM CLOSETS FOR EFFICIENT ORGANIZATION

Are your closets in desperate need of organization? Our custom closet solutions are designed to meet your specific needs and maximize your storage space. Our team can create custom closets that are tailored to your belongings, ensuring that you have ample space for your clothes, shoes, accessories, and more. With our custom closets, you can say goodbye to clutter and hello to efficient organization.

WHY CHOOSE CAROLINA CUSTOM CARPENTRY?

At Carolina Custom Carpentry, we take pride in our attention to detail, craftsmanship, and commitment to customer satisfaction. Our team of skilled craftsmen are experienced in creating custom carpentry solutions that are not only functional, but also beautiful and durable. We work closely with our clients to understand their needs and preferences, and we strive to exceed their expectations in every project we undertake.

Whether you need built-ins for added storage, finish work for a polished look, wood beams for added character, or custom closets for efficient organization, Carolina Custom Carpentry has the expertise and experience to deliver outstanding results. Contact us today to schedule a consultation and discover how our custom carpentry services can transform your home into a space that reflects your unique style and enhances your everyday living.
